What's going on ?

What's going on ?

The drugs & the killing
The blood we're spilling
How I cry to watch the news,
Behaviour I can't excuse
Guns are all around,
To the trigger we are bound
Children raping children,
What example do they have ?
Technology taking over,
Millennium looming
While the guns are still booming
Cancer & disease
Doctors fees
Where is the light ?,
Something's not right...

Paedophiles - men we trust
On the loose while innocence is all corrupted
Little girls grown up with no recognition
Money drained by the rich while we watch
Waters corrupted
Their flow interrupted
What's being done
About whats going on ?

When it comes down to it, it's only up to you
