

## Skumdum "Proud Minority"

Watch your back, watch your back  
You never know when they're coming after you  
Watch your left, watch your right  
They'll always find you no matter what you do  
The boys in blue

Dressing up, fitting in  
Has never been of interest to me  
I don't get how that makes me a villain automatically  
Proud minority

We fight for the misfits  
Drink with the drunks  
Dance with the outcast  
Play for the punks

Arrogant, ignorant  
They've never heard of objectivity  
Innocent, still accused  
And you ask me why I hate authorities

Fight the police

We fight for the misfits  
Drink with the drunks  
Dance with the outcast  
Play for the punks
