Hello, goodbye, I wanted to see, but I guess I
I don't have the strength to speak tonight
It's tricky sometimes
When you wanted to run, you'd always hide
You can't find the truth behind the lies

Another day and I'm on my feet
But the street feels like it's sleeping
I'm on a mission and it ain't too sweet
Yeah, you're the reason, I'm afraid
Said, you're the reason, I'm afraid

But I want you to know, it's killing me
I think I gotta let go 'cause it's killing me
You're gonna do what you want
But you better believe, it's killing me

Love never dies
It's the reason that I won't compromise
But sometimes you fall before you fly
I've seen it coming for quite some time, now

And I don't know what you're thinking
How can the two of us walk in stride
If we don't see eye to eye
You got me all messed up inside

But I want you to know, it's killing me
I think I've gotta let go 'cause it's killing me
And I want you to know, it's killing me
I think I need to let go 'cause it's killing me

You're gonna do what you want
But you better believe

Is it too late in the game?
There is no one left to blame
I will always mention you
To the One that I pray to

But I want you to know, it's killing me
I think I've gotta let go 'cause it's killing me

And I want you to know, it's killing me
I think I need to let go 'cause it's killing me
It's killing me

Why can't you see that you're killing me
Why can't you see that you're killing me
Why can't you see that you're killing me
Why can't you see that you're killing me

It's over, this is the end
You know I always loved you, my friend
But you gotta believe
You know you cannot be free
