(Feat. Cash Brothers)

She comes into the room  
And she takes off her dress  
And she turns out the light  
She turns to me and says  
I've had a lonely day,  
Today

She lies beside me close  
In the cool of the night  
Couldn't take the heat away  
No, not tonight

The wind is dyin' down  
Could you let it stay around  
For tonight my baby's down  
We just like to hear the sound

Well I know she wants to hide  
But she doesn't even cry  
She listens to the wind  
But she doesn't even cry

The wind is dyin' down  
Could you let it stay around  
For tonight my baby's down  
We just like to hear the sound

The wind is dyin' down  
Could you let it stay around  
For tonight my baby's down  
We just like to hear the sound
