"Love On The Radio"

Visit "[Love On The Radio](#)" on MotoLyrics.com

They talk about love on the radio
They say that you should buy it
They talk about love on the radio
Say that you should try it
They talk about love on the radio
Sure try to hard to tell it
They talk about love on the radio
Sure try hard to sell it

You get love when you buy a diamond
You get love when you buy a car
You get love if you buy some toothpaste
You get love if you see five stars
You get love when you take a holiday
You get love if you're feelin' sick
You get love if you do it the right way
You get love and you spread it thick
You get love when you eat some breakfast
You get love you roll a great big smoke
You get love if you wash the dishes
You get love and you drink a coke

You get love...etc.

They talk about love on the radio
They say that you buy it
They talk about love on the radio
Say that you should try it
They talk about love on the radio
Sure try hard to tell it
They talk about love on the radio
Sure try hard to sell it
