Saturday night and everybody's out boozin'
I get in my car and I go out cruisin'
Lookin' for a party, a chick or some dope
If it gets after midnight I don't give up hope

And if by chance I fail to connect
With a flash lookin' woman, I ain't to select
I'll roll on down and take a look at the rest
Ladies or liqueur I'll take second best

Saturday night
I'm driving'
You're drinkin'
I'm thinkin'
You're fine
And you're mine

Round about four I'll be right on top
A bit of luck with the pick of the crop
Rockin' and rollin' till the morning sun
Lights up my wagon then I'm on the run
