Have you ever really wondered,  
What do when you're lost in the black?  
And you know that you won't ever find your way back,  
You don't know where you could possibly be.  
Use the Hitchhiker's Guide to the Galaxy.  
When you find yourselves roaming in oblivion,  
Searching for things to explore.  
You can bet you will experience more,  
So many planets to see.  
They're in the Hitchhiker's Guide to the Galaxy.

Lost in the darkness forever we'll be.  
Lost in the darkness of time.  
You know all is lost if you didn't care to bring,  
The thing that we all do agree.  
Is important when in space don't you see?

That's the Hitchhiker's Guide to the Galaxy.  
Got the answer to all of your needs.  
The Hitchhiker's Guide to the Galaxy.  
Go get it, or steal if need be.  
Use the Hitchhiker's Guide to the Galaxy.
