Fire - the flames reach higher
Fire - abomination fire
War - the one which will end all life

Through the misty forest
Smoke comes from the greatest fire
Fire between trees surrounds
The lake by the greatest battle

I would spread my wings and fly
If only I possessed the powers
Powers to get away from this
Evil world in flames forever

Through the misty forest
Smoke comes from the greatest fire
Fire between trees surrounds
The lake by the greatest battles

I would spread my wings and fly
If only I possessed the powers
Powers to get away from this
Evil world in flames forever

Fire - the flames reach higher
Fire - abomination fire
War - the one which will end all life
