

## Skythrone "In Black..."

Visit "[In Black...](#)" on MotoLyrics.com

Evil, world evil.  
Fine, black evil, cross in silence  
Evil, black evil, name of evil.  
In darkness sky  
In bloody night.  
You are knowing  
What flies on wild wings  
Of the spirit world  
And it hide  
Cold, cold water washed skulls  
Of enemies, into the void...

Evil... evil dance, dance of darkness  
And flame of wheels  
...of forgotten God,  
and the simbol angel's war.  
Golden haired stars  
From the light sou and dark  
Evil... dance  
Hand, open my way.  
Angel dies!
