Lend me your ear and I'll fill it with sweet music
Let me your cup and I'll fill it from the vine
Let me your mind and I'll fill it full of wonder
Let me your time and I'll waste it for a while

CHORUS:

Lend me your love like heaven up above
Lend me your blue sky, lend me your sunshine
Lend me your soul and around the world we'll go,
Lend me your love, lend me your love

BRIDGE

Lend me your car and I will drive you crazy,
Lend me the stars as you shake them from your head,
Lend me your fears and I'll prove that they are founded
Lend me your tears and I'll toss them to the sea

CHORUS

Lend me your love like heaven up above
Lend me your blue sky, lend me your sunshine,
Lend me your soul and a round the world we'll go
Lend me your love and maybe...

Hey, hey, hey lonely day
Don't come my way again.
Hey, hey, hey lonely day,
Don't come my waaaaaaay hey hey.
