She's so respectable, she's so respectable
What kind of girl is this (What kind of girl is this)
She's never ever been kissed (What kind of girl)

Heavenly gods above (What kind of girl is this)
She never ever been in love (What kind of girl)
Or been under the moonlight watching the stars above

She's so respectable, she's so respectable
What kind of girl is this (What kind of girl is this)
She's never been out on a date (What kind of girl)

What kind of girl is this (What kind of girl is this)
She never ever comes home late (What kind of girl)
I'm telling you, baby, she's the kind of girl for me
(She's so respectable, she's so respectable)

Break

She's so respectable, she's so respectable
(Do you love her) No no no no-no, (Do you want her) No
no no no-no
(Do you kiss her) No no no no-no, (Do you squeeze her)
No no no no-no
But I love her can't you see now, she's the kind of girl
for me

(She's so respectable, she's so respectable)
(Do you love her) No no no no-no, (Do you want her) No
no no no-no
(Do you kiss her) No no no no-no, (Do you squeeze her)
No no no no-no
But I love her can't you see now, she's the kind of girl
for me

(She's so respectable, she's so respectable)
She's so respectable (she's so respectable)
She's so delectable (she's so respectable)
She's so respectable (she's so respectable)
