On the corner there's a bunch of people livin cause they  
haven't got a place to stay  
The president can't see them no he doesn't give a fuck  
And their anger grows and grows each day

Well I can see the government is putting on a show  
I can see right through it, it's fuckin crooked to the  
bone  
It's a time bomb

Somewhere in a factory there's a little guy working off  
his balls for the minimum wage  
While the big guys sits around just standing in his  
office making money on his ass all day

Well I can see right through it, and it's crooked to the  
bone  
It's a fuckin time bomb fuckin ready to explode  
It's a time bomb

Unity's the answer and we gotta join together  
Cause it's gettin harder every day  
Start a revolution, tell those fuckers in power  
To get the fuck out of our way  
Well I can see right through it, and it's crooked to the  
bone  
I can see right through it, it's fuckin crooked to the  
bone  
It's a time bomb  
It's gonna be a time bomb
