Never wanted the finer things in life  
They never meant much to me  
I only wanted to be the best  
At what i did and what i am

You took all of my life from me  
And you drain me (x2)  
You take it away from me (x2)

Never wanted to argue  
And i wish we never would have started  
All you wanted from me was fair  
And should you care if i dare

You took all of my life from me  
And you drain me (x3)  
You drain me (x2)

Never wanted to argue  
And i wish we never would hav started  
All you wanted from me was fair  
And for you to be there

You took all of my life from me  
And you drain me  
Drain me  
You drain me  
You drain me

Never wanted to argue and i wish we never would hav started  
Never wanted to argue and i wish we never would hav started

You take it away from me  
You take it away from me  
You take it away from me  
You take it away from me
