(lyrics - hanneman; music - hanneman)

Metal and men clash once more to the end
Warriors above with the power to kill descend
Militia of blood troops of hate march to die
Soldiers of hell veterans of death arise

(chorus:)

Prepare for attack
Your body will burn
Endless war
There's no return
Prepare for attack
Death will arrive
Your orders are clear
No way to hide
Fight till death

Senseless death of all mankind overtakes
Armored assassins destroy at will your escape
Children of sorrow are trampled into the grave
There is no future no [fucking] world to [be] save[d].

(chorus)

[to reign in hell]

Gods of steel unleash their destruction on man
Reign of death what is the final command
Sceptors of hate are dropped upon the earth
Clouds of terror destroy all hope of rebirth

[chorus]

[fight till death x 3]
