"Don't bring a gun," couldn't say it enough  
"Just the money and a smile  
Don't try to be tough"  
Shoes and jeans and a cardigan sweater  
You would say I'd never looked better  
I meet her in the corner of a high-class bar  
She says, "Boy, you don't know where you are"  
She moves quicker, bull's eye trigger  
Somehow the cops still manage to miss her

"Don't try to talk to the EMI"  
The officer is trying to question me  
"The lady left the scene one Japanese bike  
With a bottle of Port, and some Menthol lights"  
I feel the respirator going off and on  
They assure me that it really won't take that long  
But the burning  
The burning is burning  
The burning is burning  
The burning is burning

She don't feel the pain she's causin'  
You thought that you were automatic  
The only one that's gonna survive  
I've got evidence on her  
A bullet in the shoulder  
You can have it if you want it  
If she can't finish what she started  
Not a threat no it's a promise  
I'll make you wish you never left me alive  
Can you feel the heat that's comin'?  
It's sure to be traumatic  
When I finally get my hands on you
