Tally up those points for me
We're settling the score
After everything we've started
You're gonna keep begging me for more
(Watch this)

(Start this again!)

Tally up those points for me
We're settling the score
After everything we've started
You're gonna keep begging me for more

You don't need to tell me all about
The person I have been
Keep believing that we've given up
We're not giving in
I promise this is personal

Whoa, oh
Look at what you've started here
Whoa, oh, oh, oh
No, I just can't take it anymore

Look at what you've started now
Whoa, oh, oh, oh
Right now, I hope this makes you nervous

Tell me what were you thinking
When you kept calling us out
Or you thought we would sit quietly
And let you keep running your mouth

You don't need to tell me all about
How unoriginal we are
Keep believing that we're over when
We'll prove ya (wrong, wrong)

Whoa, oh
Look at what you've started here
Whoa, oh, oh, oh

No, I just can't take it anymore

Look at what you've started now
Whoa, oh, oh, oh
Right now, I hope this makes you nervous

I hope you know
You are what made us this time
I hope you know
We'll never fall out of line
I hope you know
We'll be the greatest this time

I hope that you
Remember!
Remember!
Remember!

Remember
I hope you remember
The last time we tried from the start!
To prove this I needed your family apart!
Take me back!
Start this again!

Oh, no
Look at what you've started here
Whoa, oh, oh, oh
No, I just can't take it anymore

Look at what you've started here
Whoa, oh, oh, oh
No, I just can't take it anymore

Look at what you've started now
Whoa, oh, oh, oh
I know, I know that you know
Everything you've started here
Whoa, oh, oh, oh

I know, I hope this makes you nervous
