And in the day and in the night  
When I fear that's my fight  
Winds blow higher (and the wind blows wild)  
A thousand miles apart (tear me down, moonchild)  
Today is the day of art

Shattered dreams, illusions in the night  
Today I'm feeling right  
Faith with me will always be  
With ignorance in me, it's just a plea  
For wisdom and technology  
The faith with me

Time, prime time  
Tomorrow we leave the sky  
Time chasing time  
There to see the future of my rhyme  
There to see the future of my rhyme (with you)  
Rhyme with you (to you)

Just a secret that has never been told  
As the writing on the paper, it's bold  
Break an entry, tear it down  
Set it lose and turn it around

Take a chance to ask me a question  
Far beyond your destiny  
Collide your fear with your deepest depressions  
It's too fatal for us to see

No matter what it turns, no matter how it burns  
Turn the pages upside down  
And let it go like a merry-go-round  
(It's me you blame for, always me)

Where do you look for (you blame for)  
Where do you search for (now I'm gone)  
Winds blow higher, a thousand miles apart  
Winds blow higher (and the wind blows wild)  
A thousand miles apart  
Moonchild
