Every night I dream of the same thing
Blissful eyes and wedding rings
The tallest cakes and the brightest lights,
This is our wedding night and it feels so right.
To hold you by my side to make you mine
For the rest of my life to hold you by my side
I'll make you mine gonna make you mine

[Pre Chorus]

In dreams I hold you in my arms
(In dreams I hold you in dreams I hold you)
In dreams I hold you in my arms
(In dreams I hold you you know I hold you)

[Chorus]

I see the way you look at me girl
And I confess that I'm impressed
With your style and grace

Better hold your tongue and speak with your heart
Just let your body take control tonight

[Pre Chorus]

[Chorus]
