I hold my breath you let yours out my nervous fingers
move

Down so slow tonight is our night
And I've never had a night like this as we get close
These silent secrets that we both hold
They will be told tonight tonight

Your sweet taste it makes my heart race
Lets go and change the pace and make love tonight

Every road you walk I will walk down
I can't take a second more baby I need you right now
Every turn you take I will take
Baby you have to be the best thing that's happened to
me

Watch close let me show you a trick

And now underneath these sheets we make more
secrets that we keep
I want to tell the world I want to scream that your my
girl
Lets not deny the passion burning inside
Lets go and tell the world lets go and tell the world

Damn girl you make me sweat lets go get down tonight
Damn girl you make me sweat lets go make love
