I need a second to catch my breath
You just stole it away
And all you did was look at me
Now I'm tongue-tied I'm a mess
I can't speak when you're around me
You're like an angel and I'm being blessed

With every second you spent with me girl
And here's my heart girl
And you can have it
I feel much safer
When it's with you
There's happiness girl
And we can have it
The key lies between me and you

I know I'm corny but it's just that you make
Every girl seems so damn fake to me
I don't have much but some sloppy written love songs
They're not that much but they're all about you

I'll try my best to make you smile give you laughter
And every penny that I make I'll spend it on you
And every morning that you wake I'll make you
breakfast
And every night before you sleep I'll make love to you

Now I could be the king and baby you could be my
queen
We wouldn't have to answer to no one but ourselves
And we could rule this land we call our bed and every
night
Instead of sleep we'll make love in it
We're never gonna say goodbye girl never ever baby
Never ever baby
We'll say hello how are you doing? I like the way you
move

I know I'm corny but it's just that you make
Every girl seems so damn fake to me
I don't have much but some sloppy written love songs
They're not that much but they're all about you

I'll try my best to make you smile give you laughter
And every penny that I make I'll spend it on you
And every morning that you wake I'll make you
breakfast
And every night before you sleep I'll make love to you

I know I'm corny but it's just that you make
Every girl seems so damn fake to me
I don't have much but some sloppy written love songs
They're not that much but they're all about you

I'll try my best to make you smile give you laughter
And every penny that I make I'll spend it on you
And every morning that you wake I'll make you
breakfast
And every night before you sleep I'll make love to you
