I want you to know I've lost all reason to sing those sad songs
I once cared for the simple love we share has killed the past
Loneliness what once was a dark sky seems as clear
As the windows of our home which we gaze out of

Now that I've got you girl your here to stay
I'm never gonna let that smile leave your face
You'll wear it proud and true
Cause baby I love you

You're pretty baby and I think maybe
I'm gonna tell you everyday

Ssshhh here comes the cutest part

This won't be the last time that I will let you know
That you're everything I could want a girl to be
And I know that you're ready for me
So hold on tight cause I

I'm gonna hold you in my arms
And never let you go again

So jump in the passenger seat girl lets not go
Home tonight jump in the passenger seat girl
I'll take you for a ride lets move into the backseat
I'll take you for a ride lets move into the backseat
I'll make you mine tonight

[Pre chorus]

[Chorus]

[Breakdown]

Your pretty baby I'm gonna tell you everyday
(Everyday my baby)
