Like a hog a rootin' up under a fence
Like a flop-eared mule that ain't got no sense
I've been a fool about you for way too long
I've been a fool about you but now I'm gonna get strong

We fight and we fuss like a dog and a cat
I'll tell you right now I've had enough of that
I've been a fool about you for way too long
I've been a fool about you but I'm gonna get gone

Well, I said I would leave if you didn't change
Baby, it's time for me to rearrange
I've been a fool about you for way too long
I've been a fool about you but now I'm gonna get gone

I'm gettin' sick and tired of the same old bull
I'll tell you right now, my bucket's 'bout full
I've been a fool about you for way too long
I've been a fool about you but now I'm gonna get gone
