The day began without a warning
6 O'clock and I'm on my way
You pass me by
I felt you coming
I'm on my way to another day
Don't pass me by
Don't pass me by

Now you're always in my dreams
Now you're always in my dreams
Now you're always in my dreams
Now you're always in my dreams

The blue above
It told the story
Of all the days
We couldn't save
They pass me by
I felt them going
Out of my grasp
And into the haze
Don't pass me by
Don't pass me by

Now you're always in my dreams
Now you're always in my dreams
Now you're always in my dreams
Now you're always in my dreams
