Here's the moment

We've waited for

Expect the unexpected

It'll knock upon your door

Everything's coming up magic now

It's written on the faces of most everyone I see

Everything's coming up magic now

Yea everything is perfect

There's no where else I'd rather be

I'm looking for an explanation how

This feeling that I get arrives when you stand next to  
me

Here's the moment

We've waited for

Expect the unexpected

It'll knock upon your door
