

Sleepy Rebels

"Looking Glass"

Visit "[Looking Glass](#)" on MotoLyrics.com

Through my looking glass
I see a beautiful view
Memories come fast
When I think of you
Visions come to life
From the stars above
In my life only love is real
In my life only love is real
Through my looking glass
I see a beautiful view

In my life all the love is real
In my life all the love is real

Through my looking glass
I see a beautiful view
Memories come fast
When I think of you
Visions come to life
From the stars above

In my life only love is real
In my life only love is real

Through my looking glass
I see a beautiful view
