On top of the hill
My dear darling
Looking upon the city below
Somewhere you are
My dear darling
Walking the streets with the sun in your eyes
Oh I didn't know it
But you're gonna have to show it
You can't keep real love bottled up inside
All I need you to say
Is say that you will stay with me upon the hill.

Deep in my thoughts
My dear darling
Nobody knows,
Got a war in my mind
Miss you to death
My dear darling
Needing you back here by my side
Oh I didn't know it
But you're gonna have to show it
You can't keep real love bottled up inside
All I need you to say
Is you're with me all the way
With me upon the hill
Stay with me upon the hill
Stay with me upon the hill
