im going in the dark  
looking in the black skye  
i dont know where i should walk  
hear the noise behind me

im going down on my knees  
praying not to die  
then i see i light  
moving quickley in the sky

Ref.  
The light fill me up whit strength  
the Starfall is coming again  
hunt it to the end of your life  
the Starfall will forfill your wishes

the beast is following me  
but im not afraid  
for these fucking creatures  
killing them whit my sword  
and drink their blood  
to get strong

Ref.  
The light fill me up whit strength  
the Starfall is coming again  
hunt it to the end of your life  
the Starfall will forfill your wishes  
get it to your mind  
the starfall is coming again  
are you ready to get doomed  
the starfall will make your dreams come true
