Like walkin' on the moon was such a good feeling
Lying in bed and i'm staring at the ceiling
Can't wake up on monday morning
Thinkin' about what makes me yawn and
As i look outside it's raining, pouring
Cats and dogs i wanna do no more an'
When i gotta get up an get out my bed
Rather sleep in late and smoke a b-load instead
~cause the harder you try
Less you succeed
Don't try at all and get everything you need
~cause the harder you fall
More it's gon' bleed
Watch where you steppin'
~cause you best not step on me
I said the harder you try
Less you succeed
Don't try at all and get everything you need
~cause the harder you fall
More it's gon' bleed
Watch where you steppin'
~cause you best not step on me
~cause if you're ugly on the outside
It don't matter
If you're beauty on the inside
It overpowers
If the beauty on the outside
It won't matter
If you're ugly on the inside
Baby don't want it
And if you the type of person getting no recognition
Reach inside your pockets
And then all your money missin' an'
You wanna shoot your guns
But you got no ammunition
Open up your mind and find
It's time to take a listen
The harder you try
Less you succeed
Don't try at all and get everything you need
~cause the harder you fall
More it's gon' bleed

Watch where you steppin'
~cause you best not step on me
I said the harder you try
Less you succeed
Don't try at all and get everything you need
~cause the harder you fall
More it's gon' bleed
Watch where you steppin'
~cause you best not step on me
It's always hard when you're working for the other man
Tyrin' to make a dollar with the palms of my empty
hand
It seems so easily
But it never seems to last long
Thinkin' thatcha got it for a minute then a minute's
gone
The harder you try
Less you succeed
Don't try at all and get everything you need
~cause the harder you fall
More it's gon' bleed
Watch where you steppin'
~cause you best not step on me
I said the harder you try
Less you succeed
Don't try at all and get everything you need
~cause the harder you fall
More it's gon' bleed
Watch where you steppin'
~cause you best not step on me
