Girl you is so fine  
Hold you near to me  
All the time  
Things ill do for you  
Would you do for me?  
Hold me too  
Gold is in your eyes  
Need you near to me  
All the time  
Lord i understand  
Things youll do for me  
Do to me

Girl  
(girl go)  
Go slow  
(nicely for a night just to live)  
That live for you girl  
(and move on)  
Boy  
(let go)  
Go slow  
(nicely for a night just to live)  
Thats been for you world  
(and move on)

Your not tryin'  
Comin' in you hope you be the problem like the lyin'  
You be better than them  
So, you never biting  
Frontin' all the shit and then the one they are reciting  
Cuz you better than them

Your not tryin,  
Comin in you hope you all be burnin' like the lion  
You be tougher than them  
So, you never biting  
Fighting all the shit and then the people are reciting  
Cuz you better than them

Girl  
(girl go)

Go slow

(nicely for a night just to live)

That live for you girl

(and move on)

Boy

(let go)

Go slow

(nicely for a night just to live)

Thats been for you world

(and move on)

So, when I was just a little young child,

Playin every game on the streets

Ghetto, someone says, "Who are fatherless?"

There was a mother, are you bet that you could keys

Speakin out the mind, and then a friend that who will

leach

Bless 'em s-low, body write a double feat

Spirits come out and just to understand the beats

In this wonderland world

I remember the days up in the past

Time didn't matter

I remember the days up in the past

Time didn't matter

Girl

(girl go)

Go slow

(nicely for a night just to live)

That live for you girl

(and move on)

Boy

(let go)

Go slow

(nicely for a night just to live)

Thats been for you world

(and move on)
