But then me call the doctor moore whos got the chronic

Said when you smoke it down but you be callin upon the
right man
The smoke is clearing and the walls start shaking
But this is non-prescription drug
You know that i be takin
He said son you've got to take it
But at least 3 times a day
But if you wanna be quick and livin in the irie way
You got to pick it up
Before it gets knocked out

Pull the seed straight out from the ground
You've got to pick it up boy
Before the one who come to steal your ganja
