Evil friend uh huh , evil friend [x2]

It never ends at the death of things  
Love will swing, burn everything and sing uh huh  
Evil friend

Evil friend uh huh, evil friend

There is starlight in your blood  
It seems there are shadows wearin' us uh huh  
Evil friend

Evil friend uh huh, evil friend [x2]

You knew rebirth but died again  
Evil friend  
Black tooth that speaks no truth uh huh  
Evil Friend  
Burn everything and sing uh huh,  
Evil friend  
Evil friend uh huh, evil friend [x2]

We are night sky, we are god's eye,  
At the end of a lullaby  
On the shore of tears yet to be cried

We are, we are, night sky, night sky  
We are, we are, god's eye, god's eye,  
At the end of a lullaby  
On the shore of tears yet to be cried

We are, we are, night sky, night sky  
We are, we are, god's eye, god's eye,  
At the end of a lullaby

On the shore of tears yet to be cried [x3]
