"A Friend Indeed"

If you will open your heart
To a friend who is in need
Reach out your hand with a smile
You'll be playing the part
Of a true friend indeed
You'll be remembered
With love all the while
(With love all the whi-ile)

A trouble shared can often be
A trouble set apart
A helping hand can mean so much
To a heaven laden heart
If you will open your heart
To a friend who is in need
You'll be remembered
As a dear friend indeed
(A dear friend indeed)

A trouble shared can often be
A trouble set aside
A helping hand can mean so much
When you're on the downward ride
If you will open your heart
To a friend who is in need
You'll be remembered
As a dear friend indeed
(A friend indeed)
