"Come See Me"

Visit "[Come See Me](#)" on MotoLyrics.com

Baby you can come see me 'cuz I need you here with me

And I'll show you what love is made of
Later on if you are free, baby you can come see me
And I'll show you what love is made of

It's been a while and I'm sitting here thinking of
How it felt when we first made love
Oh I need that feeling again
Nobody can compare, so

Come with me and I'll go with you
To this place that lovers dream of
We can do anything, sexy things
And I'm here to let you know

Baby you can come see me 'cuz I need you here with me
And I'll show you what love is made of
Later on if you are free, baby you can come see me
And I'll show you what love is made of

It's been a while, thinking about the last time I held you
And the smell of your sweet perfume, babe
The way I felt when you left my room
Oh I wanna feel that way tonight

Come with me and I'll go with you
To this place that lovers dream of
We can do anything, sexy things
And I'm here to let you know

Baby you can come see me 'cuz I need you here with me
And I'll show you what love is made of
Later on if you are free, baby you can come see me
And I'll show you what love is made of

Baby you can come see me 'cuz I need you here with me
And I'll show you what love is made of
Later on if you are free, baby you can come see me

And I'll show you what love is made of

Now that bodysuit that you're wearing girl, it fits you
like paint

You think that I'ma sit here and pass this chance when I
ain't

I got some thoughts set on you, how many things we
can do

How many women in my life but yet I only love you

You're number one on my list and I

I reminisce over our first kiss and girlfriend, yo picture
this

Let's relight the candle, give this one more shot

I never meant to mistreat ya girl, I need you right now

Baby you can come see me 'cuz I need you here with
me

And I'll show you what love is made of

Later on if you are free, baby you can come see me

And I'll show you what love is made of

Baby you can come see me

And I'll show you what love is made of

Later on if you are free

And I'll show you what love is made of

Baby you can come see me

And I'll show you what love is made of
