"In the Still of the Nite"

In the still of the night
I held you, held you tight
'Cause I love, love you so
Promise I'll never let you go
In the still of the night
In the still of the night
I remember (I remember) that night in May
The stars (the stars) were bright above
I'll hope and I'll pray
To keep your precious love
Well before the light
Hold me again
With all of your might
In the still of the night
In the still of the night
So before the light
Hold me again with all of your might
In the still of the night
In the still of the night
In the still of the night
