## "Pleasure & Pain"

You always said you loved me  
Though my mind's right now not sure  
You always been there for me  
Though my heart never feels secure  
Why can't you take a further step  
To let me know you really care?  
'Cuz now I'm feeling driven  
Into a love that's not right there

Why do you make me feel this way?  
Feeling betrayed, feeling pushed away  
Why do you make me feel so bad?  
Feeling so hurt, feeling so sad  
What have I done to make you turn?  
Feeling so lost, I'm feeling so burned  
If you really care you'll make a change  
So I could feel the pleasures and not the pain

After all I've said, you still have it set in your head  
That you don't really care about me  
Why can't you seem to believe  
That I'm the only one for you  
I gave all my love to you, oh  
And after all I've done for you  
You never seem to love me  
The way that I love you

Why do you make me feel this way?  
Feeling betrayed, feeling pushed away  
Why do you make me feel so bad?  
Feeling so hurt, feeling so sad  
What have I done to make you turn?  
Feeling so lost, I'm feeling so burned  
If you really care you'll make a change  
So I can feel the pleasures and not the pain

Baby can you feel me?  
It hurts so bad, it hurts so bad  
I just can't take no more, baby  
Girl make a change, oh  
So I can feel the pleasure and not the pain

Why do you make me feel this way?  
Feeling betrayed, feeling pushed away  
Why do you make me feel so bad?  
Feeling so hurt, feeling so sad  
What have I done to make you turn?  
Feeling so lost, I'm feeling so burned  
If you really care you'll make a change  
So I can feel the pleasures and not the pain

Why do you make me feel this way?  
Feeling betrayed, feeling pushed away  
Why do you make me feel so bad?  
Feeling so hurt, feeling so sad  
What have I done to make you turn?  
Feeling so lost, I'm feeling so burned  
If you really care you'll make a change  
So I can feel the pleasures and not the pain

Why do you make me feel this way?  
Feeling betrayed, feeling pushed away  
Why do you make me feel so bad?  
Feeling so hurt, feeling so sad  
What have I done to make you turn?
