

# 112 "Way"

Visit "[Way](#)" on [MotoLyrics.com](http://MotoLyrics.com)

This is the time where you  
All should report to the dance floor  
112, So So Def

Stop, wait a minute, hold up love  
JD plus 112, add that up now that equals  
Me seeing you and see through  
What ever the change, I let a bottle of three do

Jeans by E V Zoo check out the V to  
A roof free coupe, do you like what you see boo?  
2, 3, 2, 40 59  
Left the cold timber hi shortie, think she a dime

Me on the Mic showed her be sexing going on  
Talking reckless on the phone, she'll be naked waiting  
home  
Soon as I undress it's on, she'll be screaming  
Jermaine to six in the morning

Girl, I need to see you right away  
See there's something on my mind 'bout you and I  
That I gotta say, oh baby  
Lately we've been talking on the two way

About watcha like, about what I like  
And I think it's time we do something about it

It's been too long since you had a man in your life  
And whether you know we can not  
You need someone to touch that spot that you love  
Baby, I'm willing to give you what you've been missing

Don't tell my, girl, don't tell my girl about it  
What I need to know is

Do you want me in the way  
The way that I want you, way that I want you  
Baby, I want you, would you freak me  
Could you freak me in the way that I freak you  
Way I freak you, baby, I freak you, would you let me

I use to want you so bad years ago  
Now the feelings come back, baby, it's bad  
It's a little bit stronger than before  
Is it wrong if I touch ya

Where your man didn't touched ya  
When he had you, baby  
Don't say no, baby  
Just let me have my way with you

It's been too long since you had a man in your life  
And whether you know we can not  
You need someone to touch that spot that you love  
Baby I'm willing to give you what you've been missing

Don't tell my girl, don't tell my about it  
What I need to know is

Do you want me in the way  
The way that I want you, way that I want you  
Baby, I want you, would you freak me  
Could you freak me in the way that I freak you  
Way I freak you, baby, I freak you, would you let me

Do you want me in the way  
The way that I want you, way that I want you  
Baby, I want you, would you freak me  
Could you freak me in the way that I freak you  
Way I freak you, baby, I freak you, would you let me

Get your freak on, get your freak on  
Get your freak on, get your freak on  
Get your freak on, get your freak on
