Girl I love, your sex appeal  
And it's driving me wild baby  
Got me hooked in every way  
There's just something 'bout the way that you move  
Now I know, I worked it well  
So there's no use in fighting it babe  
And you know, you liked it too  
Let's get together and do it again  
Come on girl...

I love, your sex appeal  
When you shake it I can't take it no more  
I love, the way it feels  
Gotta have it, your sex appeal...

You turn me on, no doubt about it  
Everytime I rub against you babe (against you babe)  
I lose control, thinking about it  
You make me wanna go and do some thangz, to you  
babe  
Now I know I worked it well  
So why you wanna fight it with me  
When you know, you want it too  
So tell me what you wanna do  
Come on baby...

I love, your sex appeal  
When you shake it I can't take it no more  
I love, the way it feels  
Gotta have it, your sex appeal...

Girl you got me in this situation  
Sex me up and set my body free now  
I'm feelin' for some sexual attention  
Come on girl and put it down on me...

Just bring your body to me  
I don't understand the reason  
Why your playin' hard to get girl  
Why don't you just give it up  
To me babe...

I love, your sex appeal  
When you shake it I can't take it no more  
I love, the way it feels  
Gotta have it, your sex appeal...

Girl you know how much I love your sex appeal  
Come on baby give it up to me  
Can't you see how much I love the way it feels  
Come on baby give it up to me

I love, your sex appeal  
When you shake it I can't take it no more  
I love, the way it feels  
Gotta have it, your sex appeal...
