"Till We Meet Again"

If at that time I only Knew The value of Life
(the value Of Life)
everyday (I'm missing you)
Our life has changed(cause I don't have you)
I can't not let you go, even though I already know deep
in my heart babe
All good things come to an end
Though its goodbye don't you forget
I'll always love you
Untill we meet again
No matter how far we may be
Deep in my heart I will believe
We'll be together again
Till we meet again
Though times get hard
I know that we will survive
Nothing can stop us from Longing eachother
cause baby I always will love you!
