Think that today is the day that I live a new lie a whole  
new way to piss away a life  
It must have been something you said about something  
you  
heard from someone that read - how to piss away your  
life  
I want nothing more than to find a new drug that will  
love me back and help to piss away my life  
Throw it all away on a roll of the dice holding nothing  
back trying to stay high  
Total fuckin' self destruction  
Felony check fraud smoking pot on oxygen still fuckin'  
here ain't no one stopping me  
I spent all the money is that why your here? To fuckin'  
threaten me your fucking kidding me right?  
I'll laugh in your fucking face you sorry stupid fuck I  
ain't paying you shit you know I get high as fuck and  
when I'm high I'm dumb as fuck so go get fucked over  
again you know you ain't doing shit  
Freebase in the face of death dead from just above the  
neck shallow breathing oxygen starved blood poor  
circulation nerves constrict around the heart  
[Randall]
