You only saw the dark side of me  
Bring me back to my reality  
I have lost my belief

Without you I fail in every way  
Picture a world for me where I can stay  
Without you I break in every way  
Imagine a place for us where you and I stay

I have lost the will to fly  
With broken wings I can..t even try  
I have lost my belief

Without you I fail in every way  
Picture a world for me where I can stay  
Without you I break in every way  
Imagine a place for us where you and I stay

Picture a world for us  
A promise to set me free  
Imagine a place for us  
A promise will set me free

Without you I fail in every way  
Picture a world for me where I can stay  
Without you I break in every way  
Imagine a place for us where you and I stay
