

Dead By April "In My Arms"

Visit "[In My Arms](#)" on MotoLyrics.com

Don't look down, don't look back, I am beside you
Close your eyes, know I'm, here.
I know it's hard, to let go all that defines you
You feel like you'll never be whole again

We will find a way to erase the past
Stay with me, stay here with me!

In my arms you'll be fine I never let go
All you've lost will come again
Just stay here with me
Never look back, never again, it's over
Everything ends here in my arms

Don't give in, don't let your, memories break you
Let me take you away from here

We will find a way to make this last
Stay with me, stay here with me!

In my arms you'll be fine I never let go
All you've lost will come again
Just stay here with me
Never look back, never again, it's over
Everything ends here in my arms

I'll be here forever! (Everything ends)
Here in my arms!
I'll be here forever! (Everything ends in my arms!)
I'll be here forever! (Forever, forever)

In my arms you'll be fine I never let go
All you've lost will come again
Just stay here with me
Never look back, never again, it's over
Everything ends here in my arms
