As I'm waking up blind  
I am trapped in a mind fall  
So much regrets, so much feelings  
Are passing through my mind  
It feels like my whole existence  
Is about to end!

Lost in time  
Feels like I'm fading  
All that's left is my fate  
I'm lost within, I'm trapped inside of me  
My past is staring at me

I am lost  
So far away  
I am lost  
So far away

I feel so harmed  
So much left to (say)  
Abuse my life  
My fate

It feels like I'm buried down  
Into a black hole  
The dust is choking me  
What if there's no tomorrow?  
Will I be dead?  
All these questions  
Feels like it's my end

Lost in time  
Feels like I'm fading  
All that's left is my fate  
I'm lost within I'm trapped inside of me  
My past is staring at me

I am lost  
So far away  
I am lost  
So far away

I feel so harmed  
So much left to (say)  
Abuse my life  
My fate

Lost in time  
Feels like I'm fading  
All that's left is my fate  
I'm lost within, I'm trapped inside of me  
My past is staring at me

I am lost (I am lost)  
So far away  
I am lost (I am lost)  
So far away (So far away!)

(My mind cries loud)

I am lost (I am lost)  
So far away  
I am lost (I am lost)  
So far away (So far away!)

I feel so harmed  
So much left to say  
Abuse my life  
My fate!
