Visit "[Better Idea](#)" on [MotoLyrics.com](https://MotoLyrics.com)

I've got a better idea  
I'll give you my heart if you take care of it  
Won't you take care of me  
Now I'm learning to trust  
When I don't understand  
When I can't comprehend  
You know what's good for me

Chorus:

It's so much better when you're all around me  
When you're right here with me  
It's so much better when you surround me  
Wrap your arms around me

Now I have empty hands  
I know you'll take them  
And you'll make them  
Into something significant  
I can't do life without you  
These amazing things you do  
You are deity I recognize that I need God

(chorus x3)
