So often I find myself
In over my head
So I try to hide my face
Don't want you to see
I folded, i've fallen down
I've done it once again

I try so hard just to be with you
I'd go so far....
Just to be with you!

Chorus:
Without you i'm standing still
Your in command
Without you i can't make it through the day
My life is in your hands

Verse 2:

So still i talk way too much
I never listen closely when you
Whisper to me
Things i need to hear
So save me i'm fading fast
I've done it once again

I try so hard
Just to be with you
I'd go so far...
Just to be with you!

(chorus)
