Hey there old friend. It's been too long. I've gotta tell  
You something. I've gotta tell You something. hey there  
old friend. sometimes I hurt. I know that You care. I  
know that You care for me. I would give You everything.  
to spend my life with You. I'd give everything. its Yours  
take it all. hey there old friend. I reach for Your hand. I  
know its always been there. I know its always been  
there. hey there old friend. You never change. You'll  
always be there for me. You'll always be there for me.
