Jump da fuck up!

Muthafucka you don't understand all my hate!  
Muthafucka you don't understand all my rage!  
Muthafucka you don't understand all my pain!  
Muthafucka you don't understand.....

You seem to sever all my frequencies  
I'm tethered to your energies  
And everything turns inside out  
I can't be killed but I'm not too proud.....  
Maybe you would like to peak through the curtain  
At the same mistake you know you always make, but...  
All I really wanna know is  
Are you gonna lay the fuck back down  
Or jumpdafuckup?

Walking in the streets and looking at all this shit  
I'm full of hate, don't fuck with me  
Walking in the streets and looking at all this shit  
Open up your eyes and fucking see  
We got the tribe against society  
We got to fight the real enemy  
Get the fuck up, stand the fuck up, back the fuck up!

All this is making things a bit insane  
And I don't care who stares or stays  
The only thing that matters is  
Will you reach out if you can't resist?  
Maybe you don't give a shit for the rest of us  
But if you do the time is now, if it ever was  
If you're gonna fight, whatcha gonna do?.....  
Jumpdafuckup!

Muthafucka you don't understand all my hate!  
Muthafucka you don't understand all my rage!  
Muthafucka you don't understand all my pain!  
Muthafucka you don't understand.....

How dare you single out my honesty?  
Compare me to your travesties?  
I only wanna see you fight

The darkness you wanna live your life by.....  
And if you're gonna quit  
I don't give a shit  
What the fuck? I'm a Mack truck  
Are you gonna give up like a bitch  
Or jumpdafuckup?

Walking in the streets and looking at all this shit  
I'm full of hate, don't fuck with me  
Walking in the streets and looking at all this shit  
Open up your eyes and fucking see  
We got the tribe against society  
We got to fight the real enemy  
Get the fuck up, stand the fuck up  
fuck the fuck up

I'm a self-destructive piece of shit  
Smear me in  
I don't owe you a goddam thing  
This life never had the swing  
I don't wanna be immortal or legend or anything  
Cause the longer I'm alive, the better of you'll be  
Get ready for epitome... come on and pity me...  
Will you kill me if I say please?

I'm the same old reason not to try  
What the hell?  
Beat to death with a shovel and a new smell  
Come and get me; Mom would never let me do it  
I'm ruined, I don't want anything from you  
Cause I've got nothing left to prove, come on  
My time, everything feels fine, goodbye  
Killing from the inside
