Fell forth, destroy the source
I Can't see and my voice is hoarse
Trying to wash your hands off
You should know better than to leave us in disgust

Let me take you right to the point
All you ever do is encage in disjoint
That does it the time has arrived
Take it or leave it you better not side

You did it again
All you ever did was doubt
What do you want?
Let me tell you what it's all about

One life
Nine hearts
And eighteen hands that'll rip you all apart

We're here to decimate
To show you all we will never fall
It's gonna get serious
And critical
Don't stop because the feeling is terminal

Scream!
Scream like you never have before
Scream!
Scream till you can't scream anymore
Scream!
Scream like your throat is bleeding
Scream!
Scream till your heart stops beating
Scream for me!

Get off of me, and get away
Show the whole damn world this will never die
No matter how the energies scatter
Got to know nothing exists but the dream

Give it all
Till there's nothing left to give

Save it all
Quit saving you
If you're going to let the pain inside
Never underestimate the way you live your life

Scream!
Scream like you never have before
Scream!
Scream till you can't scream anymore
Scream!
Scream like your throat is bleeding
Scream!
Scream till your heart stops beating
Scream for me!

All our lives
All we ever sacrificed has paid
Everything
Everything is possible to me
Why no fate?
Found everything that I had to take away
Save your life
Save it all that mean something to me

All our lives
All we ever sacrificed has paid
Everything
Everything is possible to me
Why no fight?
Found everything that I had to take away
Save your life
Save it all and make a better way
Yeah

This stress, is a feeling that you can't compress
Everything your going through is total stress
Are you going to be a momentary kane and run a
wreck?
How will you handle the matter and prove you exist?

All our lives
All we ever sacrificed has paid
Everything
Everything is possible to me
Why no fight?
Found everything that I had to take away
Save your life
Save it all and make a better way

All our lives
All we ever sacrificed has paid

Everything
Everything is possible to me
Why no fight?
Found everything that I had to take away
Save your life
Save it all and make a better way

Scream!
Scream!
Scream!
Scream!
Scream!
Scream!
Scream!
Yeah!
