I know where you always hide
All the anger inside you dies
Free all the needs you hide
I don't understand why it's like that anyways
Give me something to say or
Give me a phrase
I'm not like you
In anyway
Sometimes I don't get you
In this place of shame
There is no room for two
And I'm the one they blame
I'm not like you
In anyway
Back away
I don't care what you have to say to me
Repeat
I don't need your help
You're all the same
With your back facing me
Like there's nothing to see
Will turn around and notice me!
