It's been lonely without you,

all i want to do is be with you,

so come right here and stay the night,

so we can be together forever!

---Chorus---

I don't want to be the one to start the fight,

i'll be the one to make it alright,

i'll be the one to light the night

cause' baby i'll be the one

i said your my one, my only one

i want to stay with you, be with me,

you can love me, i can hold you, because baby im  
always here

i want to hold your hand, when we get old, and share  
are memories that never get cold.

because evertime I look into your eyes,

i melt right down, deep inside.

i love your candy kisses, and your smile

you light up my day, by just looking my way.

with all your hopes and all your goals, i know you wont  
be the player that rolls...

Rap

complete beauty in my eyes,  
you can tell me right now,  
if your ready for me,  
can you handle what im all about  
do i make you nervous? haHa  
without a doubt!  
im the kind of chick that gets what she wants,  
needs what she pleases, and thats thats  
and when i get misleded? hmm you'll be the one whos  
bleedin  
thats the way i am  
nothing will ever change..!
