Hey Mr. Creepy Guy whatcha gonna do to me now  
I heard you're gonna kill me then you're gonna embalm  
me

You're such a fucking dork  
And ya...got mr matlock to keep you outta jail  
I'm very flattered buddy that I'm worth so money

You drug me up, and make it look like I died from  
natural causes  
Then you and your friend chop me up  
Into a million pieces

Only 2 more years till you get off probation  
Don't you think it's time to get a new obsession it's  
been four years  
Don't you think if you really really wanted me dead  
You'd come over right now, put me in my place  
And stick a bullet in my head
